No problem. This helps me figure out my workload schedule.
Thanks

We are working on lining it up internally, but due to time away in summer, it could be mid-July.

Do you know when you would be able to release the review to us?

Thanks

No new news on the exchange network grants, but I can ask around on the next national UIC data managers call which will be in July.

Also, just an informal heads-up: we got the WV rules files back from the HQ contractors who has helped with UIC program primacy revisions and such with other states and was also the one who reviewed the draft files last year. She flagged several issues. We are hoping most if not all of them can be things that can be addressed in the Program Description or other files you have to submit and not require you to redo your state rules, because that would obviously elongate the timeline to get it done

even further than it already has been. I only mention this since you mentioned that WV was hoping to submit the formal package to EPA in July.

I was pretty sure Environmental Justice can be a focus.

Overall, my impression is that the states should identify their needs and try to associate costs and share that with EPA.

FYI, we finagled a position just for Class 1 & 6 and hope the person is hiring within the coming month. This will be one

one the first assignments, since time is of the essence for possibly applying for grant.

Hey, have you heard anything about the exchange network grants, as to when EPA will look at applications?

Thanks

Not sure if you got much out of that call; I was at my wife's family reunion at Emerald Isle, NC, but wanted to tune in. As is often the case when people talk in a conference room but there is only one microphone for people on the call to try to listen in, the sound quality left something to be desired. It looks like our HQ UIC office is still working on all the details of the Class VI grant.

Subject: Meeting at 2

Hi,

Hope you're doing well. Do you know if the meeting will be recorded?

Albert Barbary is on vacation and will be our person in charge of pursuing

an online permitting, inspection, and enforcement system so it would be

nice if he can catch up by viewing the meeting.

I will attend.

Thanks!!!
